FD 680

#### Separate Multi-Part Forms Quickly and Easily

The **FD 676** and **FD 680** High-Volume Industrial Bursterns process continuous forms at speeds up to 500 feet per minute while slitting, separating and stacking the forms. The **FD 676** base model is available as the **FD 680**, with the addition of an imprinter. Each high-volume unit is capable of continuous operation, 7 days a week, processing forms up to 17" long.

Standard features include slitters, tractor feed, safety interlocks, stand and a conveyor unit. Various options are available including a center slitter, static eliminator, merger for 2-up forms, tri-color ink roll, power drop stacker, and more.
